

I completed Talk to AI

I asked a real question in a public AI tool and I checked the answer. This slip is the record. The mark is **#AGENTIC50** — Digital Pioneer, The Pioneers Podcast, 50+TechBridge.

MY GOAL TODAY

☐ Family ☐ Health ☐ Job ☐ Work

I DID THIS (PARTICIPANT CHECKS)

- ☐ 1. I opened ChatGPT (or the cohort's one tool) in a browser. I did not need to download an app. Stay logged out was fine.
- ☐ 2. I sent one practical prompt (letter, trip, recipe, or a job / life task). I can say what I asked.
- ☐ 3. I sent a follow-up: "Make that shorter" or "What should I check with a real person?"
- ☐ 4. I did *not* type my Social Security number, bank numbers, or passwords.
- ☐ 5. I know AI can be wrong. A real person still decides.

IN MY OWN WORDS — WHAT I ASKED, AND WHAT I WILL CHECK WITH A PERSON

PARTICIPANT SIGNATURE OR INITIALS

FACILITATOR INITIALS (WITNESSED)

For the board / host: Attach to the IEP/ISS or case note. Suggested line: "Completed 50+TechBridge Digital Pioneer Module 1 — Talk to AI (Lesson 2 coach). Public AI tool + human-check follow-up. Slip attached." Next module: Don't Get Scammed. This slip is the include-and-refer artifact — not a medical record and not a ChatGPT transcript.

Do not: Staple a ChatGPT printout that contains personal details. Do not use this slip as a diagnosis, benefits, or legal form. Health questions wait for Week 4.
